

**Subject:** COVID Protocols - League 2021

Dear Chairperson

Please take note of the following COVID Protocols that are still applicable and must be strictly adhered to for League Matches - For the detailed Guideline please see attached document.

**LEAGUE COVID PROTOCOLS :**

1. **NO SPECTATORS ALLOWED** – Please ensure that this is communicated to all your club members so they can pass on to family and friends. Under no circumstances are spectators permitted at any venue. If parents are transporting children to games, then unfortunately we must request that they either remain in their cars until the player is finished their game or alternatively drop and go and collect again when the game is complete. Players that have already played must vacate the venue as soon as possible after completion of their game. Clubs and Associations are being fined R4500 per offence for their being spectators at venues. It's not worth it, so please obey the rules.
2. **All Clubs are responsible for the screening of players & team management on match days at their respective home venues.** Each venue must have a COVID Compliance Officer on duty when there are official games taking place. This person needs to keep control and ensure that all COVID protocols are strictly adhered to. WPHU Officials will be doing spot checks at venues to ensure that all rules are being followed.
3. **COVID SCREENING REGISTER:** Please ensure that you take a copy of your team's attendance register/screening doc with to your game. Completed attendance register / Screening docs must be left with the Compliance Officer at the venue. If a club wants to retain a record, they can take a photo of the completed register. Template attached.
4. Any clubs that use Hartleyvale for their home fixtures will be billed R100 per home game for having a Union Appointed COVID Compliance Officer on Duty.

Kind Regards  
Robyn
